CAASTRO Visitors are academics from outside Australia who spend time working at a CAASTRO node on a CAASTRO research project with a CAASTRO Chief Investigator and other research staff. Visitors enhance the collaborative work between international researchers and CAASTRO researchers. A CAASTRO Partner Investigator may also be a CAASTRO Visitor during time spent working at a CAASTRO node.

## CAASTRO Visitor Form

The ARC Centre of Excellence for All-sky Astrophysics (CAASTRO) aims to establish Australia as the world leader in the emerging discipline of wide-field astronomy. **We are delighted to receive your application to be a CAASTRO Visitor.**

### Your Details

- **Title:** Professor, Dr, Mr, Mrs, Ms, Miss, (circle) or other: _______________________________________________________________________

- **Given Name:** ___________________________ **Surname:** _______________________________________________________________________

- **Institutional Affiliation:** _______________________________________________________________________

- **Country:** _______________________________________________________________________

- **Telephone:** **Work**_________________________ **Mob/Cell** ___________________________

- **Email:** _______________________________________________________________________

- **Start date of visit:** ___________________________

- **End date of visit:** ___________________________

---

Proposed Collaboration Partners/Project/Supervisor within CAASTRO (description of planned activities with regards CAASTRO's science themes, work to be done and talks to be given):

---
Your proposed contribution will be across the following CAASTRO All-Sky themes:

- [ ] Dark
- [ ] Dynamic
- [ ] Evolving

Will the projects you will work on:

- [ ] Make ground-breaking advances in our understanding of the Universe, thereby cementing Australia’s reputation as a world leader in astrophysical research
- [ ] Develop innovative new ways of surveying the entire sky, of processing enormous volumes of astronomical measurements, and of visualising complex data sets, so as to build unique expertise in wide-field radio and optical astronomy
- [ ] Make high-impact discoveries using the Australian Square Kilometre Array Pathfinder (ASKAP) and other SKA pathfinder telescopes, thus positioning Australia to lead the science programmes planned for the SKA
- [ ] Provide compelling new research, computational and technical opportunities for students and early-career researchers, by bringing Australia’s top astronomers together into a focused collaborative environment.
- [ ] Unite and connects other scientists with this project.

**Proposed schedule for your visit to CAASTRO:**

**Proposed budget for your visit to CAASTRO** (please include: travel accommodation, proposed contributions from one or more node(s), and requested funding (matching or otherwise) from central CAASTRO visitor funds):

<table>
<thead>
<tr>
<th>Income from a CAASTRO Node (please state the node)</th>
<th>Income from a CAASTRO Node (please state which node)</th>
<th>Income from central CAASTRO visitor funds</th>
<th>Income from other sources</th>
</tr>
</thead>
<tbody>
<tr>
